

## ARCHITECTS, OWNERS AND BUILDERS

Call Our Engineers FIRST and Save Costly Alterations

*The Extensive Use* of the telephone in hotels, apartment houses, large buildings and large residences, makes it essential that in buildings of these types provision be made to carry the large number of wires necessary for furnishing telephone service.

*In Smaller Buildings* and residences the entire concealment of the telephone service wiring can be arranged for at a very small cost if included in the building plans.

*If Some Arrangement* is not included in the original building plans, it may be necessary to make extensive and costly alterations after completion of the building, in order to conceal the wires running through halls and rooms.

*The Engineers of This Company* will be glad at any time to give architects, owners or builders the benefit of their experience in such matters without charge.

Write or Call Our Manager at Hammond
